

## LOCAL BUILDING ACTIVITIES INCREASE

Building activities in the city showed a marked increase during the first two weeks of April according to the number of building permits issued by Fire Marshal Howard L. Stanton. Thirteen permits have been granted during this period and two more applications for permission to build have also been received. These permits granted include seven for barns, four for houses, one for a barn and one for an addition. The applications are for a house and garage. Although there has been a marked increase in the number of permits for this period very little has been done owing to labor conditions here which as yet remain unsettled.

Clarence R. Henderson has been granted permission to erect a garage on Central avenue. The garage will be 21x13x13 feet and will be mostly of stone construction. The rear and side walls will be of stone with the front and roof of wood. The roof will be covered with fire proof shingles.

A barn 28x24 feet is to be erected on property owned by Edward J. Dora and abutting on Palmer street. The building will have a stone foundation and the roof will be covered with composition shingles.

Peck-Williams Co. has been awarded the contract for the erection of a garage for Charles A. Chamberlain on his property off Warren street. The garage is to be 32x24x16 feet and will have cement floors with a stone shingled roof.

Anton Frymoyer is to erect a frame garage at his home at 68 Roosevelt avenue. The size of the structure will be 12x12x13 feet. The building will be of frame construction with concrete and brick foundation. There will be cement floors and the roof will be covered with fire proof material.

D. O. Dutton is to erect a small garage at his place on Russell road. The building will be of frame construction with stone foundation. The building is to be 16x16 feet.

Tengren and Burman have been awarded the contract to erect a frame house on Bowtell avenue for Thomas Vigilant. The building will be 17x24 with an ell 12x17. The building will be of spruce frame with an exterior of red cedar clapboards with asphalt shingles for a roof. The interior finish will be of plaster and hardwood trim all floors.

A frame cottage house for Joseph McHale is to be erected on Oakridge street. The house will be 25x35 feet and two stories high. It will be of frame construction with a concrete foundation and cellar. The exterior finish will be in stucco while the interior will be in hardwood and plaster.

Alfred and Gottlieb Halseh have been granted permission to erect a frame garage, 32x24 feet, Daniel street. The building will have a spruce frame on a concrete and stone foundation. The idea will be of cedar and the floors will be of hard pine. The roof will be covered with fire proof material.

A garage, 16x12x12 is to be erected at the corner of Smith, Duffey and Seventh street for John Gleson. The garage will be of frame construction with fire proof roofing.

Work on the addition for Adelard Lambert at 229 Franklin street is well along. The addition is 11x13 and one story in height. Contractor P. F. Sweeney has the contract.

Contractor Sweeney has been awarded two contracts for dwelling houses for which permits have recently been issued. These houses are for P. C. Crowell who is to build on Elmwood avenue and the other is for Conrad Shuler who is to build on Geer avenue.

Clarence Brown is to erect a 12x20 garage on his property at 43 Howe avenue. The garage will be of frame construction and fire proof.

Stephen Wenzel has made application for permission to build a frame cottage house on Geer avenue. The house will be of frame construction with a spruce frame covered with pine siding and red cedar clapboards. The foundation will be of stone and concrete with a cement bottom cellar. The interior finish will be of plaster walls with hardwood floors.

Dr. Louis T. Casady is to erect a garage at his home at Union street. The garage will be of frame construction with slate covered shingle roofing. Michael P. Camplin has the contract.

**REAL ESTATE SALES AND MORTGAGE LOANS**  
Norwich had \$3 sales of real estate last week to 17 for the same week last year. The loans for the respective weeks were \$21,160 and \$22,830.

In New London there were six sales of realty the past week to 17 for the corresponding week in 1920. The loans for the two weeks totaled \$2,100 and \$39,390.

**NEW LONDON.**  
A two-family frame house will be erected on Perry street for Antonio Di-Noto. It will be 32x24 feet, with six rooms, tiled bath, hardwood floors, steam heat and shingle roof.

A new garage will be erected on Equine street for Michael Schwartz, 27 Bank street, from plans by Bilderbeck & Langdon, Inc. It will be 26x28 feet, of frame construction, with concrete floor and approach, arranged for three cars. The work will be done by the day.

The contract has been let for raising the roof of the service station of H. D. Barrows, 416 Williams street. The cost will be \$500.

A frame addition will be erected by G. W. Randall, 31 Addison street, on the building at that address. It will be 10x25 feet, and will cost \$400.

A brick garage will be erected for H. F. Lepa, 154 Broad street, at that address. It will be 20x20 feet, with an asphalt roof, costing \$300.

A frame cottage, 20x25 feet, and having asphalt shingle roof, will be erected by

F. J. Kalka for himself at Cape Ann court, cost being \$2,000.

The Pequot Laundry company, 31 Pequot street, will erect a frame addition to their building which will be 35x30 feet. The work will be done by the day and the cost will be \$500.

**Building Permits.**  
G. W. Randall, frame addition, 31 Addison street. Cost \$400.  
F. J. Kalka, frame cottage, Cape Ann street. Cost \$2,000.

Pequot Laundry company, frame addition, 31 Pequot street. Cost \$500.  
E. I. Raymond, bungalow, 18 Pacific street. Cost \$3,000.

Total number of permits for the week 6; estimated cost of buildings, \$5,480.

**STONINGTON.**  
A summer cottage will be erected here for F. E. Carlyle of Springfield from plans prepared by Architects Bilderbeck & Langdon of New London. It will be 34x28 feet, two stories high, of frame construction, with fireplace, tile bath, and other modern conveniences. The plans are now out for figures.

**STAFFORD SPRINGS.**  
The board of selectmen have obtained an option on the Baker property and the Gary property as a site for the new memorial town hall to be erected here from funds left to the town by the late Charles Warren. An architect will be selected shortly to prepare plans for the new building.

**ECLIPSE OF THE MOON**  
**NEXT THURSDAY NIGHT**

The western hemisphere will be able to view a total eclipse of the moon, if it can keep awake long enough on the night of April 21-22. The light will then get into the path of the light that travels from the sun to the moon, and for 42 minutes that dead planet will not be able to borrow illumination from the sun.

The eclipse begins at 11:57 p. m. eastern standard time on April 21 when the moon enters the penumbra or outer shadow of the earth. The ordinary observer will hardly be able to tell that the moon's light has faded slightly. As the moon nears the real inner earth's shadow or umbra, its edge will darken and at 1:03 a. m. the moon will begin to be gradually swallowed by the shadow.

The first portion of the moon to be eclipsed will be completely hidden, but as more and more enters the shadow, the part of the moon immersed in the shadow may become visible by a reddish coppery light that is caused by the sun being refracted through lower parts of the earth's atmosphere. The total eclipse will begin at 2:33 a. m. and until 3:05 a. m. the moon will remain completely covered by the shadow. At 3:28 a. m. the moon will have crept entirely out of the umbra, and at 4:32 it will even be free from the outer shadow.

During the 42 minutes of total eclipse the moon may either disappear from view so completely that in its stead there will be an absolutely empty space devoid of all stars like a hole or tunnel in the sky, or it may be easily seen shining

with a beautiful dull copper color. Just which way it cannot be predicted, because it depends on the cloudy or clear condition of the sunrise and sunset circle of the earth at the time. Either the sun's rays will not penetrate or they will be allowed free passage and will be bent by refraction and tinted with sunrise and sunset colors by selective absorption.

This will be the last total lunar eclipse visible in the United States for about six years, according to Prof. W. S. Elchberger, of the naval observatory, who has charge of the computer of the Nautical Almanac. "There will be about 29 such eclipses in the next fifty years," he said in denying published statements that the coming eclipse will be the last until fifty years hence.

All who can see the moon above their horizon at the time will be able to see the shadowing of the moon. From far in the Pacific Ocean to the Atlantic, in both North and South America the phenomenon will be visible.

**EXTENDING INVITATIONS TO**  
**CHAMBER OF COMMERCE FORUM**

The Norwich chamber of commerce is inviting its members to attend the forum meeting in the town hall Thursday evening, April 21, 7:45 p. m. sharp. This meeting is to take action on daylight saving, by common consent, through the general adoption or rejection of the following resolution:

"Whereas the city of New York, the states of Massachusetts and Rhode Island, the New York, New Haven and Hartford railroad will go on daylight saving time on April 24th, and our community and transient population, our mails, our newspapers, schools and banks will therefore be seriously inconvenienced unless they conform to this schedule, it is hereby moved and seconded and voted that we pledge ourselves to move our clocks ahead one hour at 12 midnight, April 24th, 1921, until midnight of the last Sunday—September 28th of September, 1921, for ourselves and our respective businesses, and we further invite the general public and the churches to advance their clocks to correspond."

Last December a referendum was held on daylight saving, which was overwhelmingly endorsed, as shown by the result of the vote of the members—213 in favor and 65 opposed. Manifestly, Norwich favors daylight saving. This question will be discussed and action taken to secure the consensus of the people. It is proposed to see every industry in the city and town of Norwich relative to this matter. Also action will be taken by the merchants. In the event of industry deciding to advance their clocks one hour ahead at 12 midnight, April 24, followed by similar action by the merchants, the street railway company and the schools, which have been practically assured, there is no reason why Norwich should not have daylight saving

by common consent. No more, therefore, that you will be interested enough in this matter to attend this forum meeting, which will commence at 7:45 p. m. sharp.

**Taxation**  
On the same evening at 8:15 p. m. the forum meeting will discuss our equitable taxation problem. Mr. William H. Blodgett, tax commissioner of Connecticut, has promised to be present and address the members on taxation from the state's point of view. If it is possible, Mr. A. M. Simons, chairman of the board of assessors of Hartford, Connecticut, will address the members on the method of reassessment recently made in Hartford and its consequences. According to the report of the tax commissioner, recently issued, Norwich has not had a revaluation since 1910. Certainly conditions have changed since that time and, consequently, it is high time to consider the matter and take action upon it at the next regular town meeting in October.

With a tax rate of about 40 mills, one of the highest, if not the highest tax rates in the state, and an extremely low valuation, as indicated by our grand list of a little over \$13,000,000, this matter calls for our serious consideration.

On October 1, 1920, Hartford increased the valuation from \$12,500,000 to \$23,900,000, and lowered the tax rate from 28 3/4 mills to 20 1/2 mills, notwithstanding this important fact, that nearly one million dollars was added to the budget of the City of Hartford that year. That there is a widespread demand for the investigation of our tax rate is without question, inasmuch as this was the first plank in the program of work submitted by the membership after the reorganization last October.

As members of the Norwich chamber of commerce, maintaining your membership in this organization because you believe in the progressiveness of our community, you are urged to give this matter your serious consideration during the next few months, in order that this question can be intelligently understood and proper action taken at the next town meeting in October.

This is your chamber of commerce. This is your community. The directors and the committee in charge of this taxation question are devoting much of their time and effort to the solution of this vexatious question. You are asked to seriously consider this problem and to cooperate with your officers and committees for the purpose for which your chamber exists, namely, the progress and development of our community and a determined effort to attain this end.

Remember the date! Thursday, April 21, town hall, 7:45 p. m. sharp. Bring your wives and friends, to convince your officers that you are keenly interested in this matter.

**CHARLES F. WELLS, President**

**NEW FIRE ALARM BOXES**  
**ARE TO BE INSTALLED**

For better protection of the city in case of fire, three new fire alarm boxes are to be installed this week. The wires are all in place and the boxes have arrived and

are the latest type of boxes. These boxes are to be placed at the corner of West Main and Forest streets, the number to be 113; corner of Fourteenth street and Bowtell avenue, number to be 213; corner of Warren and Broad streets, number to be 211.

A new private box for the Norwich gas and electric light plant on North Main street is also to be installed; this box will be No. 212. The box was ordered by the gas and electric department shortly after the fire which occurred at the plant several months ago.

**DISTRICTS FOR STATE**  
Chairman M. W. Potter of the legislative committee on congressional and senatorial districts has announced that the House plan for rearranging the state into congressional districts has been assigned for hearing Tuesday, April 24, along with a bill to equalize the senatorial districts of the state.

The fact that the bill increasing the membership of the national house of representatives has yet to pass the senate does not delay the legislative committee, Chairman Potter said, because Connecticut is entitled to another congressman on the strength of her increased population regardless of the disposition of the bill in congress.

The following is the bill prepared by Senator Bowers for submission to the committee, covering some relatively minor changes made in the plan since it was originally worked out, including the switching of Orange from the Fourth to the Third district and counterbalancing alterations:

Section 532 of the general statutes is amended to read as follows: For the purpose of representation in the congress of the United States there shall be elected in the manner provided by law six representatives, who shall be voted for by the electors of the following districts: District No. 1 to consist of the towns of Bloomfield, Canton, East Granby, East Hartford, East Windsor, Enfield, Eastbury, Marlborough, Newington, Southington, Simsbury, South Windsor, Suffield, West Hartford, Wethersfield, Windsor and Windsor Locks in the county of Hartford; district No. 2 to consist of the counties of Tolland, Windham, New London and Middlesex; district No. 3 to consist of the towns of Beacon Falls, Bethany, Branford, Cheshire, East Haven, Guilford, Hamden, Madison, New Haven, North Branford, North Haven, Orange, Prospect, Wallingford and Woodbridge in the county of New Haven; district No. 4 to consist of the towns of Bridgeport, Fairfield, Shelton, Stratford, Trumbull and Westport in the county of Fairfield; and the towns of Andover, Derby, Milford and Seymour in the county of New Haven; district No. 5 to consist of the county of district No. 6 to consist of the towns of Meriden, Waterbury and Wolcott in the county of New Haven; and the towns of Avon, Berlin, Bristol, Burlington, Farmington, New Britain, Plainville, and Southington in the county of Hartford.

**PREPARES TELEPHONE LIST**  
**FOR YANTIC PUMPER CALLS**

As there is no fire alarm system in the territory that is protected by the new Yantic pumper, and people dependent upon the pumper must utilize the telephone to give an alarm, Secretary W. E. Manning has prepared the following list of telephone calls of members of the department. It is asked that people keep this list handy in case of fire:

Name	Day	Night
Foreman Gibbs	111.5	389.4
Asst. Foreman Bentley	398.5	358.5
Engineer Bishop	298.5	326.3
Asst. Eng. Kingsley	126	126
Asst. Eng. Curry	599	618.4
Secretary Manning	1558	603
Fireman Hart	1558	253
Fireman Stock	1558	1558.14
Fireman Burdick	1558	1558.14
Yantic mill	1558	1558

**CRIMINAL COMMON PLACES**  
**COURT HERE FRIDAY**

The criminal court of common pleas is to begin its April session in this city next Friday morning at 10 o'clock. A jury will be in attendance.

C. B. Whittlessey, prosecuting attorney of the court, is to be at the clerk's office in this city at 10 a. m. today (Tuesday) and in New London at 10 a. m. in the Plant building at 2 p. m. for the purpose of arranging for the business of the session.

All cases not arranged on or before today will be considered for assignment for trial for April 22, 1921, without further notice.

Civil cases are to be assigned for trial to the jury at the end of the criminal session.

Darien.—That a firebug is busy in Darien, and that his motive is a desire to see the new fire engines the town recently purchased do something for the money spent for them, is the belief of Darien officials. In the last week three fires of incendiary origin aroused the town.

Why You Must Have Iron to Make Your Body Strong and Your Brain Keen

Alert and Powerful—Value of Spinach and Organic Iron to Help Make Rich Red Blood and Revitalize Wornout Exhausted Nerves

WITH PLENTY OF BLOOD AND IRON, YOUR BRAIN is the most wonderful thing in all creation but without these it is nothing. IRON TAKES OXYGEN from your lungs and carries it to your brain. Without iron your brain gets no oxygen; and without plenty of rich red blood and oxygen your brain becomes dull and heavy, YOUR INTELLECT POOR, your memory fails, YOU DO FOOLISH THINGS, and you had decided to do very much to do nothing, so far as accomplishing anything of importance is concerned.

Also without iron YOUR BLOOD BECOMES THIN AND WATERY and loses its power to change food into living cells and tissue and therefore nothing you eat does you the proper amount of good—you do not get the full strength out of it.

THERE ARE 30,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

When, as a result of iron starvation you get up feeling tired in the morning, when you find yourself nervous, irritable and easily upset; when you can no longer do your day's work without being all fagged out at night; when your digestion all goes wrong, or you have pains across the back and your face looks pale and drawn, do not wait until you go all to pieces and collapse in a state of nervous prostration, or until in your weakened condition you contract some serious disease, but take more spinach and iron (or better yet, take our NUTRATED IRON) to help enrich your blood and revitalize your wornout exhausted nerves. But be sure that the iron you take is organic iron and not metallic iron.

**NUTRATED IRON** ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

**An Unfailing Way To Banish Hair**

(Beauty Notes)

Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of delatone and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about 15 minutes, then remove and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real delatone.

**PARTIAL REDEMPTION AT**  
**THE BIGELOW CAREER PLAN**

Thompsonville, April 18.—Employees in the three unorganized departments of the Hartford-Bigelow Career Company went into work when the plant opened today but from observation it did not appear as if more than a score of persons in the three departments which have a union, returned. It was said by the officials that approximately 1500 persons went into their usual places. A strike in the dyehouse, tannery and musette departments closed the plant on March 14.

A few of those who went to work in the organized departments were said by the strikers to be new hands who had never been in the mill before.

About seventy police officers and deputes gathered under High Sheriff G. H. Gabb were on duty during the day outside the mill. There was no interference with those returning to work and nothing happened out of the ordinary during the forenoon.

In the afternoon four cases where the company had tried to evict tenants of the company's house were called. In trying the first case the court held that the statutes had not been lived up to in service of the original notice to vacate and dismissed the case. Counsel for the company did not press the other cases as the notices to vacate were served on the same day.

After the noon hour a number of old employees went into the dye house. It was said at the mill that the number was 25, or half the regular number.

**U. S. WILL NOT TOLERATE WAR**  
**PANAMA AND COSTA RICA**

Washington, April 18.—(By The A. P.) War between Panama and Costa Rica is growing out of the present boundary dispute will not be tolerated by the United States, it was learned today authoritatively.

Both governments are understood to have been informed that the obduracy of Panama over the dispute of the American government, must not be made the basis for the renewal of hostilities.

It was not revealed in what manner the United States had made known that it would regard hostilities with keen displeasure, but it was assumed that ventasions had been sent to both Panama and San Jose.

Official reports received here recently have indicated that peace on the Isthmus was again about to be disturbed. These said that Panama was mobilizing her army to meet any aggression from the north, while Costa Rica was assuming a belligerent attitude and had been assured of the support of Guatemalan and Guatemala.

The American position is understood to be that the United States is bound by treaty obligation to safeguard the integrity of Panama and that any move by Costa Rica would justify drastic action.

**TO PROCEED AGAINST THE**  
**ENACTORS OF ANTI-TRUST LAW**

New York, April 18.—Samuel Untermyer, general counsel for the New York legislative committee investigating the building trust, today announced that he intended to proceed against the enactments of the anti-trust law.

"I regard every one of these enactments as a criminal conspiracy that must be dispersed without further toleration or delay if there is to be anything approaching competition," said the statement. "So long as these devices are permitted to exist prices will not come down, no matter how great may be the reductions of the basic materials on which these prices are founded."

He predicted disclosures that will prove an object lesson to the country, would follow resumption of the legislative committee's hearing here.

**RUSSIAN RESTAURANT**  
**IN SEYMOUR RAIDEN**

Seymour, April 18.—The Russian restaurant at 9 Second street was raided last night and five men placed under arrest for violating the law relating to gambling. Among those arrested was the proprietor, Ivan Ivanovich, who was fined \$10 and costs, and the others \$3 and costs in court this morning.

Simsbury.—Mr. and Mrs. John E. Stacy will celebrate their golden wedding anniversary Wednesday at their home in the Phelps-Curt section, keeping open house for friends and relatives from 10 o'clock, and in the evening from 7 until 9 o'clock, and Mrs. Stacy were married April 20, 1871, at the Anglican church, Meriden, Conn., by Rev. W. W. Jones. Mrs. Stacy was Miss Elizabeth Fish.
